## EXECUTIVE COMMITTEE (2025-2027)

**Chairman**
Mr. Ng Tat Ming (伍達明)
SR (DR), HKCH

**Vice Chairman (DR)**
Mr. Wan Shiu Bun, Nelson (溫紹斌)
SR (DR), PYNEH

**Vice Chairman (RT)**
Dr. Leung Wan Shun, Vincent (梁允信)
Ass. Prof. of Practice , HK PolyU

**General Secretary**
Mr. Lee Chun Wai, Will (李俊偉)
APDR (DR) , HKCH

**Financial Secretary**
Mr. Lam Tsan Pun (林燦斌)
DM (DR), HKCH

**Executive Committee Members**
Mr. Lee Wing Yiu, Joseph (李永耀)
Deputy Department in-charge
(Department of Radiotherapy), HKSH

Mr. Lau Kwok Wa (劉國華)
Senior Clinical Associate, TWC

Mr. Hui Siu Kit (許少傑)
DM (DR), AHNH

Mr. Liu Hong Lung, Dragon (劉康龍)
SRT (RT), PWH

Dr. Wong Tsz Lung, Jacky (黃子龍)
Associate Professor, BScRT program leader, TWC

Mr. Leung Hoi Ning, Alex (梁海寧)
SR (DR), UCH

Mr. Wong Ting Hei, Edward (王鼎熙)
Ass. Prof. of Practice , HK PolyU

Mr. Li Wei Kin (李惟建)
APDR (DR), UCH

Ms. Wu So Chi, Lilian (胡素枝)
Rad I (DR), DH

Mr. Hui Tsun Wah (許浚驊)
SR (DR), PYNEH

# MESSAGE FROM CHAIRMAN

It is my great honor to share this message with our members in the 2026 HKRA Newsletter. As I begin my second term as Chairman of the Hong Kong Radiographers' Association (HKRA), I reflect on our collective commitment to excellence and progress. Guided by the principle of "the right time to do the right thing," we have turned proposals into actions and expanded academic and social initiatives to benefit our profession and our members.

I extend heartfelt gratitude to all Executive Committee (Ex Co) colleagues for their dedication, agility, and solidarity. Their contributions have been truly commendable.
Manpower challenges have long affected our profession, but relief is expected in 2026 with the arrival of new graduates and Limited Registered Radiographers from overseas. At the same time, we must prepare for the potential oversupply of local graduates projected in 2029/30. Balancing workforce needs will be critical to sustaining quality and stability.

With the mandatory CPD requirement now linked to the renewal of three year Practicing Certificates, our CPD Management Platform is being revamped to help members manage credits and report to the Radiographers Board (Rgb). Future enhancements will ensure seamless integration with the forthcoming CPD reporting system.

Academically, HKRA continues to broaden learning opportunities. In 2025, we launched two Radiology Continuing Education Programs (RCEP)—one on Medical Imaging and another on Professional Indemnity Insurance. These initiatives will continue, alongside collaborations with local and international partners to deliver webinars and seminars that foster cross border knowledge exchange.
Community engagement remains central to our mission. We have visited six secondary schools to introduce students to medical imaging and radiotherapy, nurturing early awareness and interest in the profession. Public education initiatives co organized with NGOs and healthcare bodies further reinforce our role in promoting radiology knowledge.

Our welfare initiatives have also flourished. The Ex Co organized exchange visits and tours, including hospital visits in Jiangmen and Hengqin, and participated in major international events such as ECR 2026, CSIT 2025, and the Asia Australia Conference of Radiological Technologists 2025. These activities strengthen professional ties and provide valuable experiences for members.

As always, HKRA remains steadfast in supporting members through academic resources, social enrichment, and welfare activities. We look forward to introducing more classroom courses, public education programs, and community initiatives. Your suggestions are always welcome, and we sincerely appreciate your unwavering support.

Tat Ming Ng
Chairman
Hong Kong Radiographers' Association

# HKRA HIGHLIGHTS 2025 - 2026

As we continue our journey through 2026, the Hong Kong Radiographers' Association (HKRA) remains steadfast in its mission to advance the profession, foster international collaboration, and inspire the next generation of healthcare talent. This edition highlights our professional achievements and educational initiatives in 2025 and 2026

## REFLECTING ON THE SUCCESS OF HKRRTC 2026

We extend our deepest gratitude to our distinguished speakers, dedicated delegates, supportive exhibitors, and our co-organizers, HKART and HKCRRT. Together, we brought the theme "Synergizing Innovation and Care" to life over two inspiring days in Hong Kong. The energy, knowledge shared, and international connections forged during this conference were remarkable. As the HKRA, we are incredibly proud to have co-hosted this meaningful gathering, continuing our tradition of excellence following the successful ISRRT World Congress 2024. Your passion continues to drive the standard of our field forward.

## STRATEGIC ADVOCACY AND PROFESSIONAL REPRESENTATION

During 2025–2026, HKRA actively engaged with key government leaders and policymakers to shape the strategic future of radiography.

Our Chairman attended the Financial Secretary's Luncheon Talk hosted by The Hon. Paul Chan Mo-po, providing professional input on healthcare fiscal priorities on 16 March 2026.

On behalf of the our association, our chairman submitted a comprehensive policy paper titled "Smart Imaging, Boundless Integration" to the Health Bureau, outlining seven core strategy areas including public health reform, AI-assisted diagnostics, and primary care integration.

Moreover, our chairman and executive committee member Mr. Alex Leung joined the health service leaders in a working meeting with Hon. Hung Kam-hin and Hon. Cheung Pui-kong. HKRA formally presented the policy document "Exploration and Recommendations on the Existing Separation of Industry, Academia, and Research in Medical Imaging and Radiotherapy Professions," advocating for a joint-appointment professor model to bridge clinical practice and research.

## 衛生服務界同慶回歸與國慶

8月28日晚，HKRA會長及委員非常榮幸受邀出席了「香港衛生服務界 慶回歸 賀國慶 2026年度慶祝晚會」。

醫護界同仁共聚一堂，氣氛非常熱烈！本會代表在晚會上與衛生服務界的各醫療業界精英進行了深度交流，共同分享對推動本地醫療發展、探討放射醫療影像技術及提升服務的遠景及期望。

感謝大會的誠摯邀請，讓醫護專業界別能凝聚力量、攜手並進。未來，本會將繼續發揮專業精神，與業界緊密合作，為香港醫療體系注入更多正能量，共創更美好的明天!

## CPD REQUIREMENTS UPDATES

Mandatory CPD Administration Seminar

HKRA coordinated closely with the Radiographers Board to host an essential briefing at Tung Wah College. We extend our sincere thanks to Mr. Daydrew NG, Secretary of the Radiographers Board, and the Education Committee team for detailed explanations regarding mandatory CPD credit requirements and annual practicing certificate renewal procedures.

# INDEMNITY INSURANCE OFFER EXCLUSIVE FOR HKRA MEMBERS

Member Protection: Professional Indemnity Insurance (PII) Introduction

The HKRA is committed to the comprehensive protection of our members. We are pleased to introduce the Professional Indemnity Insurance (PII) scheme tailored for our members. This essential plan is designed to provide professional liability coverage, ensuring our practitioners have the necessary security and peace of mind while delivering high-quality healthcare services.

HKRA 會員專屬資訊

## 香港放射師協會會員<br>醫護專業責任保險計劃（PII）簡介

本計劃為香港放射師協會會員而設，由保險公司承保及持牌保險中介負責銷售及服務，讓會員可在自願基礎上選擇是否參加。

### 為什麼放射師需要專業責任保險？

專業責任保險（PII）已是國際放射師行業標準。英國、澳洲、加拿大及紐西蘭均要求註冊放射師必須具備適當的專業責任保險安排才可執業。

在香港，多數放射師只依賴機構保險，個人保障缺口巨大。專業疏忽導致的索賠、法律訴訟及失去執業許可等風險，個人應主動保護自己。

### 計劃特點

**相宜保費 + 兩種保障額**
每位會員保費由 HK$650 起（2026年9月1日至2027年2月28日半年保費），提供兩種賠償限額選擇。

**民事責任及延伸保障**
包括民事責任、合約責任及誹謗等保險澄清範圍。

**好撒瑪利亞人行為**
於緊急事故現場為非同住家人提供醫療協助亦受保障（Good Samaritan Acts）。

**延伸保障及停業後保障**
設有持續承保（Continuous Cover）及最多 36 個月停止執業保障（Run-off Cover）。

**查詢費用與文件保障**
涵蓋紀律查詢費用、文件遺失及公共關係開支等額外開支。

**環球保障**
全球保障（美國及加拿大除外），配合不同工作環境需要。

所有資料均以正式英文保單條款為準。

### 保障額及保費（2026/27 保單年度）

保險期：2026年3月1日 至 2027年2月28日。

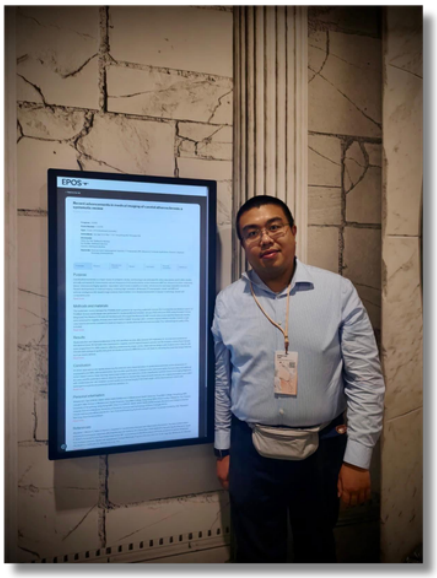

| 計劃 | 每宗及全年最高賠償額 | 全年保費* |
|---|---|---|
| 選項1 | HK$5,000,000 | HK$1,300 |
| 選項2 | HK$10,000,000 | HK$1,750 |

* 以上保費未包括保險業監管局徵費 (IA Levy)，徵費將按監管要求額外收取。

## GLOBAL & REGIONAL ACADEMIC OUTREACH

HKRA delegation actively participated in prominent international and cross-border conferences:

• European Congress of Radiology (ECR 2026, Vienna): Over 20 HK radiographers attended. Dr. Jacky Wong, Mr. Barry Lam, and Mr. Larry Kwok presented at the prestigious “ISRRT meets HK” session, while Dr. Marco Tam presented an HKRA-sponsored poster.

• Greater Bay Area Exchange: Attended the 6th Annual Conference of Medical Imaging Technologists Branch of Guangdong Medical Doctor Association, featuring an academic talk by Prof. Jacky Wong on GBM radiomics.

## GLOBAL & REGIONAL ACADEMIC OUTREACH

• 33rd CSIT Academic Conference (China): Invited by CSIT to engage in deep discussions on clinical AI integration. Four HKRA delegates (President Tat Ming NG, Prof. Jacky Wong, Prof. Marco Tam, Prof. Anson Chau) presented research papers.

## LOCAL SYMPOSIA & PROFESSIONAL EDUCATION SERIES

MedTechX 2026 (PolyU HTI): Served as supporting organization. General Secretary Mr. Will Lee presented on AI in Pediatric Interventional Radiology, and member Mr. Mike Lai received the HTI Outstanding Alumni Award.

Tung Wah College AI & Innovation 3.0: Supported the School of Medical and Health Sciences symposium featuring expert talks on radiomics, AI applications, and lab tours.

## LOCAL SYMPOSIA & PROFESSIONAL EDUCATION SERIES

RCEP II Legal Risk Seminar: Held at HK PolyU with nearly 100 participants covering “Beyond the Beam: Real Cost of Legal Risk for Radiographers.”

RCEP 2026 QA & DXA Workshops: Organized seminars on quality, safety, automation at TWC, alongside a dedicated DXA reporting workshop at PolyU.

## BRINGING THE RADIOGRAPHY PROFESSION INTO THE COMMUNITY

School Talks Series (“Radiography and Radiographers with Me”): HKRA team and student representatives visited Tsung Tsin College, Pooi To Middle School, and Tsang Pik Shan Secondary School to inspire students about radiography careers.

## BRINGING THE RADIOGRAPHY PROFESSION INTO THE COMMUNITY

Primary Healthcare Seminar: Co-organized an elderly health evaluation & primary care event in Kwun Tong alongside the Hong Kong Physiotherapists' Union (HKPU), the Hong Kong Society of Professional Optometrists (HKSPO) and Kwun Tong Resident Association.

## GENERAL SCIENCE MESSAGE TO PUBLIC THROUGH MEDIAS

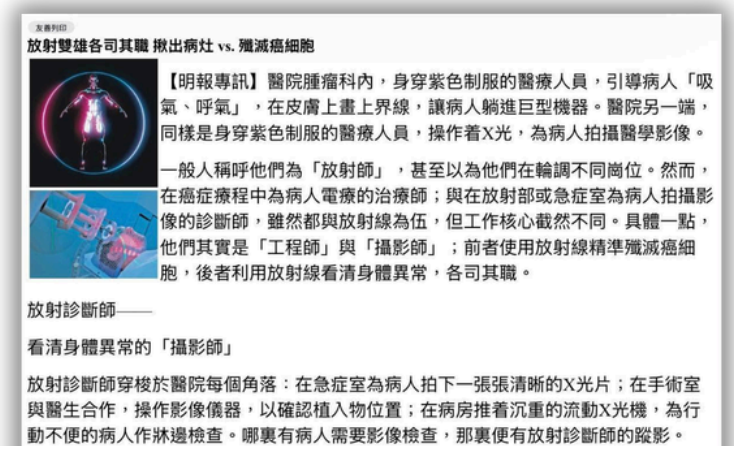

Media & Science Educational Publications: Partnered with “兒童的科學” (Science for Kids) across two consecutive issues and co-published radiation safety educational articles in Ming Pao.

放射雙雄各司其職 揪出病灶 vs. 殲滅癌細胞

【明報專訊】醫院腫瘤科內，身穿紫色制服的醫療人員，引導病人「吸氣、呼氣」，在皮膚上畫上界線，讓病人躺進巨型機器。醫院另一端，同樣是身穿紫色制服的醫療人員，操作着X光，為病人拍攝醫學影像。

一般人稱呼他們為「放射師」，甚至以為他們在輪調不同崗位。然而，在癌症療程中為病人電療的治療師；與在放射部或急症室為病人拍攝影像的診斷師，雖然都與放射線為伍，但工作核心截然不同。具體一點，他們其實是「工程師」與「攝影師」；前者使用放射線精準殲滅癌細胞，後者利用放射線看清身體異常，各司其職。

放射診斷師——

看清身體異常的「攝影師」

放射診斷師穿梭於醫院每個角落：在急症室為病人拍下一張張清晰的X光片；在手術室與醫生合作，操作影像儀器，以確認植入物位置；在病房推着沉重的流動X光機，為行動不便的病人作牀邊檢查。哪裏有病人需要影像檢查，那裏便有放射診斷師的蹤影。
